\*\*\*\*Note Lead and Lead Compounds

A relevant portion of our products may contain lead (CAS no. 7439-92-1) as:

- Lead as constituents in, amongst other materials, aluminum or copper alloys (brass).
- Lead in high melting temperature type solders.
- Lead as lead zirconate titanate (CAS no. 12626-81-2) in piezo-transducers.
- Lead as radiation protection material for our Radiometric products.

The amount of lead or lead compounds depends on the respective product and its configuration.
