

## Change at Endress+Hauser Flow

Mirko Lehmann new managing director of the flow measurement manufacturer

**Dr Mirko Lehmann is taking on new responsibilities within the Endress+Hauser Group. He will become managing director of the product center for flow measurement technology, based in Reinach, Switzerland, on 1 April 2021. For the past 14 years he has headed the Swiss sensor manufacturer Innovative Sensor Technology IST AG in Ebnat-Kappel.**

At Endress+Hauser Flow, Mirko Lehmann succeeds Dr Bernd-Josef Schäfer, who has left the company. The product center is one of the leading manufacturers of flow measurement technology for industrial applications. The company employs more than 2,000 people worldwide and, in addition to Switzerland, manufactures in France, the United States, China, India and Brazil. Currently, the company's site in Reinach is being expanded at a cost of more than 60 million Swiss francs.

### **Representative of a strong corporate culture**

Since 2007 Mirko Lehmann has been managing the business of Innovative Sensor Technology IST AG, which is part of the Endress+Hauser Group and specializes in primary sensor production. Since then, the number of employees has increased fivefold and sales have increased tenfold. The company manufactures in Switzerland and the Czech Republic; it employs more than 400 people worldwide.

"Mr Lehmann has successfully developed and expanded Innovative Sensor Technology IST AG together with the employees. He stands for uncompromising customer orientation, professional expertise and a strong corporate culture. We are happy that he will be leading one of our largest product centers in the future," said Matthias Altendorf, CEO of the Endress+Hauser Group.

### **Responsibility for 'future lab'**

Mirko Lehmann holds a doctorate in physics. The 49-year-old is a Swiss and German citizen. After 13 years in Switzerland, he now lives in Freiburg, Germany with his wife and four children. In addition to his responsibilities as managing director of Endress+Hauser Flow, he will continue to head the Group's Sensor Automation Lab in Freiburg. There, an interdisciplinary team of scientists and developers is working on sensor solutions of the future.

Dr Mirko Lehmann (49) will be the new managing director of Endress+Hauser Flow.

### **The Endress+Hauser Group**

Endress+Hauser is a global leader in measurement and automation technology for process and laboratory applications. The family company, headquartered in Reinach, Switzerland, achieved net sales of over 2.6 billion euros in 2019 with a total workforce of 14,000.

Endress+Hauser devices, solutions and services are at home in many industries. Customers thus use them to gain valuable knowledge from their applications. This enables them to improve their products, work economically and at the same time protect people and the environment.

Endress+Hauser is a reliable partner worldwide. Its own sales companies in 50 countries as well as representatives in another 70 countries ensure competent support. Production facilities on four continents manufacture quickly and flexibly to the highest quality standards.

Endress+Hauser was founded in 1953 by Georg H Endress and Ludwig Hauser. Ever since, the company has been pushing ahead with the development and use of innovative technologies, now helping to shape the industry's digital transformation. 8,000 patents and applications protect the Group's intellectual property.
